Governor Rauner:

DSPs perform challenging and responsible work for poverty-level wages.

Last year you vetoed HB 5931, which would have raised DSP wages to \$15 an hour, because you said a balanced budget was the way to fund an increase. But the budget you proposed this year had *no increase for DSPs*.

DSPs—and the people they support—deserve more! Please raise DSP wages and support SB955 and HB2960.
