

NO BOUNDARIES

A Program of Search Since 2013

Located in a thriving business community in Evanston, No Boundaries is an innovative, tuition-based program designed to help individuals with disabilities build workplace skills, obtain competitive employment, achieve personal and career goals, improve communication skills and participate more fully in the community.

Our unique approach integrates on-land (in-person) and on-line (internet) skills building, which are essential for the 21st century workplace and community life. Through No Boundaries, participants can access internship opportunities in the fields of technology, communications, marketing, retail, warehouse order fulfillment, office administration and more.

No Boundaries incorporates a dynamic mix of instruction, guest lecturers, experiential learning and hands on interaction that expands participant contact with potential employers, local businesses and community resources.

By partnering with community businesses, schools, families and individuals, No Boundaries opens the door to employment and community life for people with disabilities.

“One thing I am doing at No Boundaries that I wasn’t doing before is networking. I participated in a Skokie Chamber of Commerce event... where I networked with business people and then connected with them on LinkedIn.”

– Alex, No Boundaries participant
